Sir

I beg to bring to your notice that while I was at Kolar in 87/7 I bought a piece of land with a stone masonry pavement by the side of the Bowringpett Road to the Eastern front of the Taluk Cutchery at Kolar, and that one of this land - a strip of land - was taken and utilized by the municipality for the Widening & straightening of the said Road which is known to the members of the Board & other persons in Kolar I believe.

Again when I was at Gulbarga in 87/8-89 avenue trees were planted by the side of the road in my land and when those trees grow I fear the whole of the remnant portion of my land will become useless for building purposes.

I did not get or ask for Compensation for land already utilized for the road at this time. I thought it inadvisable to advance my claim during the time I myself was Connected with the Board there

If you and the Board think that I should not be deprived of the advantage which might be granted to a private person in similar cases, I shall be obliged by your favourable Compensation as the Board may be pleased to fix. For my part I shall be happy were they to give me the piece of the land which lies to the South of my land & east to the Rocks, and which was filled up during Summer, to enable me to make it as a flower garden.

Some one who knows the spot and the position of the road would be able to tell you that a good strip of my land has been utilized for the road

The portion of the land was taken by the Municipality to widen the road one often tamarind & 2 or 3 often Bilvapatri trees were cut down as they were standing on the portion of the land added on to the road only one tamarind tree & three young Bilvapatri trees with the stone wanting are still standing on the land

It was considered to be a charitable office & it will be continued to be so forming flower or other kind of the garden as already stated by me if the strip of land on which a pooja formerly was be given me as already decided by the Municipal Board.

The pooja was, it is believed, attached to the Tope formerly & the land reclaimed will never become fit for building

In returning the Memo & papers received with the above, observes that while the extent of land taken up is only 3½ Padeas the land proposed to

be granted is nearly double,
viz 6 1/4 Padees. The Revenue
papers shew that Survey
No 45 held by Mr Coposawmi
Modalier contained a
Charitable Tope and Mantapum
& No 39 a Joonta which was
recently filled up, and that consequently
these two Survey Numbers
bear no assessment.
The Extent of Survey No 45
is stated to be 7 3/4 Padees
according to accounts and
13 1/2 Padees according to the
present measurement, and
beyond saying that a portion
of his land has been taken up by
Government, Mr Coposawmi Modalier
assigns no reason for such a large
difference between the Entry in the accounts & the
present measurement. If, as observed by
the Dy Commissioner, the present measurement
exceeds the extent of land Entered in the old
